

GAS INNOVATIONS

INDEPENDENT WHOLESALE SUPPLIER OF INNOVATIVE PRODUCTS & SERVICES

Partners in Commitment

Safety, Health, and Environmental Policy and Commitment to Customers

Gas Innovations encourages the responsible development, introduction, manufacture, transportation, storage, handling, distribution, use and ultimate disposal of chemical and gas products so as to minimize adverse effects on human health and well-being and on the environment.

Gas Innovations is fully committed to supporting the global chemical industry's Responsible Care™ by taking precautions towards ensuring that its products, raw materials, and wastes do not represent an unacceptable level of risk to its own employees, to its customers and their employees and customers, to the public or the environment.

Gas Innovations considers the many customers with whom it does business as being partners in meeting the goals and objectives of this policy.

Gas Innovations' policy is to operate an ongoing program to educate, advise, and assess customers' efforts to fulfill their responsibilities as good stewards of these products.

More specifically Gas Innovations will:

- Institute this policy of shared commitments and responsibilities and communicate it to customers with whom it conducts business.
- Communicate and ensure understanding of our expectations with our customers.
- Assist our customers to apply these principles and guidelines, and so meet Gas Innovations' expectations.
- Apply this criteria, as well as commercial criteria, in the selection and maintenance of customer relationships.
- Monitor our customers' adherence to these principles and guidelines.
- In cooperation with our customers, ensure corrective actions to cure all issues.
